

GATEKEEPER SPEC SHEET

Case Verification

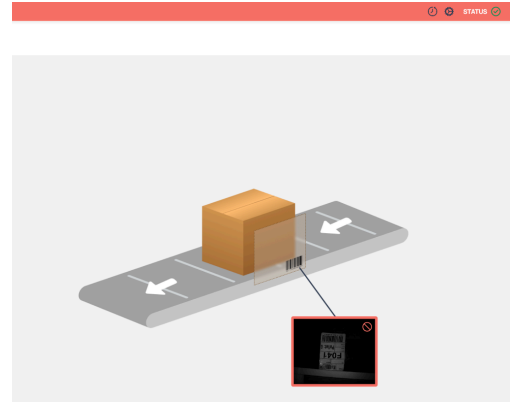

Reliable label validation to meet strict compliance mandates.

AbeTech's GateKeeper offers a complete, turnkey solution to help you meet complex compliance mandates with ease. From label design and printing to applying, verifying, and ensuring accurate data transmission, **GateKeeper ensures the right label is applied to the right case with the correct data**, reducing errors, and streamlining compliance validations. Easily integrated into your existing labeling processes and production lines, GateKeeper is the drop-in solution you need to meet the regulatory requirements of your industry.

KEY BENEFITS

- **Eliminate mislabeling and noncompliance**, while reducing fines and penalties caused by mislabeling or incomplete label verification.
- **Automate multi-side label verification** to eliminate human error and ensure compliance.
- **Ensure accurate labeling and weighing** to reduce material waste and compliance-related fines.
- **Eliminate case-level traceability gaps** and provide full visibility for audits and recalls.
- **Streamline manual labeling and weighing processes**, reducing labor costs and increasing throughput by 20%.
- **Combine automated labeling and vision-based verification** to match product details to labels, preventing mislabeling and increasing accuracy.
- **Ensure real-time visibility** with detailed tracking and reporting, reducing inventory discrepancies and increasing customer satisfaction.

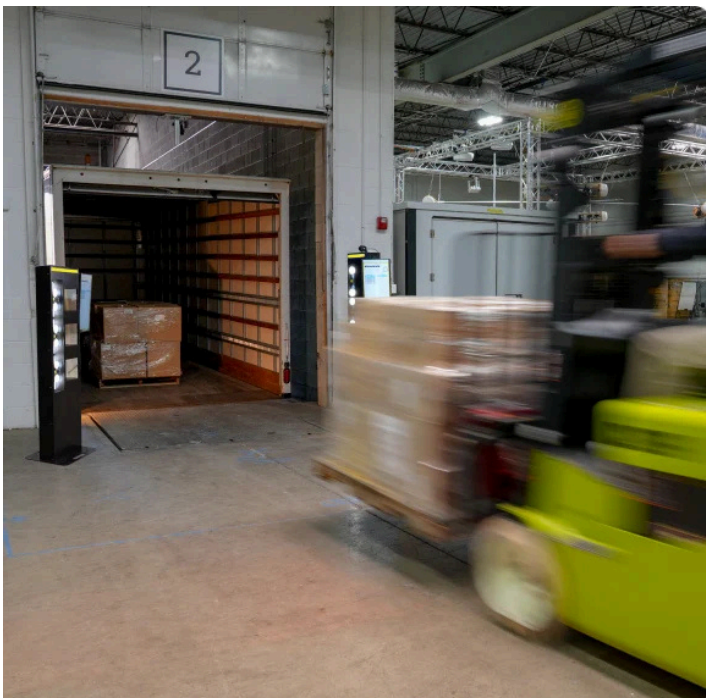

MEET YOUR COMPLIANCE MANDATES WITH GATEKEEPER

GateKeeper helps you meet compliance mandates with ease, addressing:

- **FSMA 204 labeling**,
- **GTIN requirements**,
- **RFID mandates**,
- **and more.**

It ensures accurate barcode quality, label matching, check weights, and lot code tracking, helping you avoid fines and stay ahead of regulatory demands. [LEARN MORE >](#)

GATEKEEPER CASE VERIFICATION IN ACTION

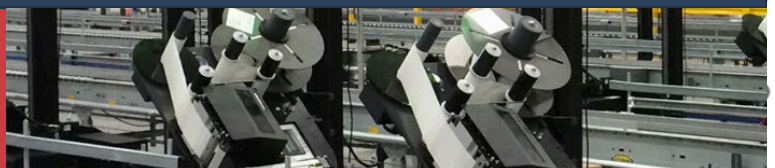

A food manufacturer facing strict compliance mandates turned to AbeTech's GateKeeper case verification solution to ensure accurate labeling and RFID encoding. GateKeeper facilitated the entire validation process, verifying case labels for accuracy, encoding RFID tags, and seamlessly sending validation data to a third-party source.

With built-in reject capabilities, GateKeeper ensured only validated cases left the facility, streamlining compliance and providing a reliable, end-to-end solution to meet regulatory requirements.

COMPLEMENTARY SOLUTION: AUTOMATED LABELING

ADDRESS MODERN LABELING DEMANDS WITH CUTTING-EDGE AUTOMATION.

Why AbeTech?

INTEGRATION WITHOUT INTERRUPTION

AbeTech excels at seamlessly integrating verification solutions into your existing infrastructure, minimizing disruptions, and streamlining your operations. Our verification solutions systems integrate flawlessly with a wide range of systems and processes—from ERP and warehouse management systems to labeling software and production line equipment.

CUSTOM SOLUTIONS FOR EVERY INTEGRATION NEED

AbeTech delivers customized labeling verification solutions designed to meet the unique demands of your industry and workflow. Whether you need high-speed inline systems or flexible handheld devices, our tailored solutions ensure compliance and enhance efficiency.

UNMATCHED COMPLIANCE SUPPORT

AbeTech can help ensure your labels meet all regulatory and industry-specific standards, protecting your business from costly non-compliance penalties and ensuring smooth market access.

DECADES OF PROVEN EXPERTISE

Benefit from the expertise of a trusted partner with a proven track record in label verification and system integration. Serving over 25% of the Fortune 500, AbeTech has a proven track record of delivering reliable verification solutions in sectors like manufacturing, logistics, retail distribution, and healthcare.

READY TO STOP WASTING THOUSANDS ON NONCOMPLIANCE FINES?

Discover how AbeTech's Gatekeep case validation solution can help you meet your compliance mandates. [Contact us today](#) to learn more and take the first step towards operational excellence with our tailored technology solutions.
