

Take Critical Action With Your Critical Assets

It all starts with visibility.

ABETECH

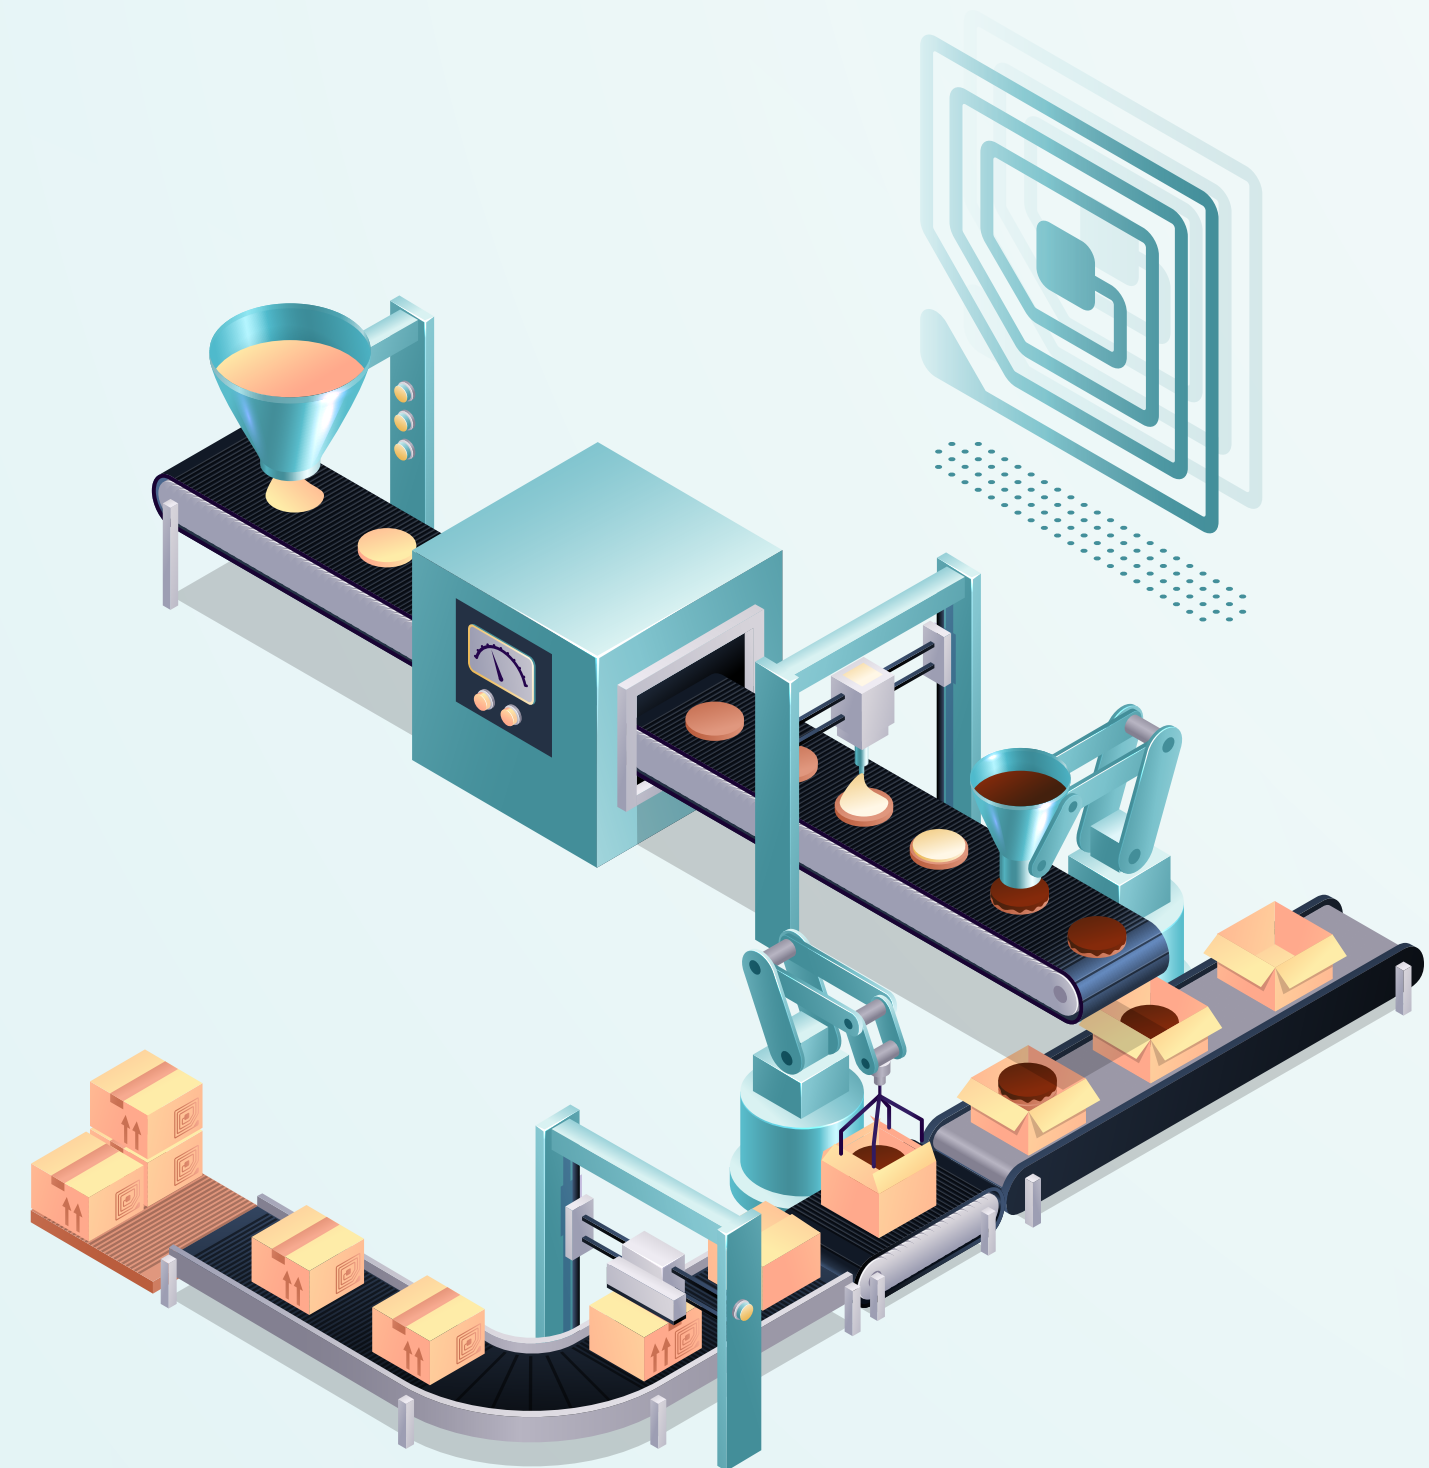

ZEBRA 
MOTIONWORKS™

Track and Trace Food From Farm to Fork

Food traceability and transparency are integral factors in ensuring efficiency and productivity in the food processing industry. But this can only be achieved through enhanced visibility. AbeTech has developed RFID technology that significantly enhances asset traceability within the supply chain. When RFID tags are implemented with an asset tracking system like Zebra's MotionWorks Enterprise Platform, this result is optimized clarity that drives actionable insights.

Benefits:

- Streamlined workflows
- Increased productivity
- Maximized resources
- Ensured accuracy
- Improved safety

Food recalls can wreak havoc on the entire supply chain. The cost is significant, when you consider the following FDA statistics from 2019:

124

Total food recalls in the U.S.

20,427,455

Pounds of food recalled

Zebra MotionWorks

MotionWorks Enterprise is an innovative platform that leverages quantifiable, real-time data and feeds it into a single, integrated management console for enhanced visibility. It provides base platform functionality for resource tracking by operating as a data collection engine for tagged assets. This enables users to quickly locate position and movement-based workflows. It also ensures a seamless integration with existing enterprise applications.

Benefits:

- Reduced search time
- Consolidated technologies
- Automated entry/exit points
- Enabled wireless messaging
- Featured reports and alerts

End-to-end Track and Trace—Simplified

41% of industry decision-makers say they use RFID tags to improve food traceability within the supply chain, tops among all other technologies cited in a Zebra Technologies survey.

Optimized Efficiency

Addressing the ever-changing safety regulations and market fluctuations, AbeTech has partnered with Zebra to develop solutions that meet these challenges head on. AbeTech's RFID technology automates manual processes and captures more data in less time, leading to streamlined operational efficiencies and improved supply chain accuracy.

Resource optimization is achieved through Zebra's MotionWorks platform. By automatically tracking assets in real-time, with accurate views into stock availability, workflows and replenishment, users are provided with the intelligent analysis of business processes.

Benefits:

- Improved supply chain visibility
- Enhanced asset traceability
- Detailed workflow assessment
- Ensured quality of products
- Food safety compliance

Solutions for the Future

At AbeTech, we strive to bring you innovative solutions that produce tangible results. But don't just take our word for it. Hear what our satisfied customers are saying:

“

AbeTech has a customer for life. It is so nice to work with people who do what they say and say what they do.

“

We really value the relationship with AbeTech and look forward to a long-term future together.

Superior Supply Chain Visibility

AbeTech's RFID technology produces a flow of streamlined efficiency

Intelligent Edge Solutions for Asset Tracking

Achieve unprecedented visibility in your food processing supply chain with RFID solutions from AbeTech. RFID tags improve asset traceability and transparency more than any other technology. When implemented with a real-time asset tracking system like MotionWorks from Zebra, you are armed with optimized visibility that drives actionable insights.

AbeTech offers RFID locationing technology and services for:

- Inventory Management
- Work in Process
- Yard Management
- Asset Tracking

Enhance Performance with Zebra RFID Hardware

Maximize productivity and efficiency in any enterprise—large or small, with consistent and reliable RFID hardware. Designed for use in indoor and rugged environments, Zebra's RFID and handheld fixed readers provide unmatched accuracy and interoperability.

MC3330R INTEGRATED RFID READER

Next-generation Android experience meets best-in-class RFID performance

- Low TCO with flexible development tools
- Zebra's signature rugged design
- Unparalleled data capture performance and flexibility

FX9600 FIXED UHF RFID READER

Top of the line performance for high-volume rugged environments

- Unrivalled deployment simplicity
- Industry's best TCO
- Rugged mobile mount for use in forklifts

FX7500 FIXED RFID READER

Advanced fixed RFID reader for business class environments

- Easy to deploy and simple to manage
- All-new high-performance radio technology
- Low profile and compact footprint

Leverage location data to streamline your connected enterprise

Unleash the power of location data with actionable insights. Improve inventory accuracy and streamline product workflows with RFID locating technology and services.
